 2,244+ Sq. Ft.

 3 Bedrooms

 2.5 Bathrooms

How can you not feel on top of the world when standing atop a bridge 700 years old - like the iconic Swilcan Bridge at St Andrews? That's how we want you to feel in this home plan. With a first floor study, chef-inspired kitchen, and expansive living area, you'll feel like royalty in your own pajamas. Just venture upstairs for even more space and storage. It's pretty iconic if we do say so ourselves.
