Home Priced At \$399,990

Plan: Bright Copper Kettles

- 1,932+ Sq. Ft.
- **3** Bedrooms
- 2.0 Bathrooms

As our lives have become more automated and inextricably connected, we value the classics such as the copper kettle. They're dark and sleek... muted and artful. Your home is where it's safe to be the slower, more deliberate version of yourself. Take time to enjoy the beauty of one floor living with thoughtful separations of space and room to explore the possibilities of a flex space. The Flex room can be anything you need in your safe place. Will it be a study? A music room? This is one call that you get to make.

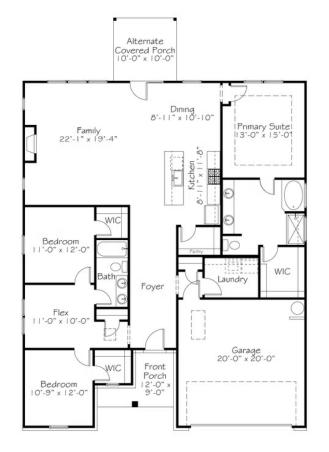

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
